

K-Love radio is a valued part of our community because it provides safe, family friendly, morally sound messages, entertainment and information. I believe this would be compromised if it were displaced by an LPFM broadcaster providing other programming. We would no longer have the peace of mind we now have with the positive messages of K-LOVE. I think these current values displayed on K-LOVE radio protect our families and community as well as encourage a safer, more moral place to live and interact with our fellow residents.
